Mental Health First Aid Courses Fee Schedule

Each course comes with its own unique features. When your organization is planning for your course, it’s helpful to understand the costs and fees associated. Mental Health First Aid is valued at \$170 per participant, but we strive to provide quality training while understanding that each group has different financial needs. Using the below fee structure can help you in planning the costs of your training.

We also want to ensure that cost is not a barrier to provide these valuable and life-saving skills to your staff, group, and community. If you have a need for reduced-cost training, reach out to us. While not every reduced-cost training request can be honored, Evergreen will work with you to identify potential alternative training resources to fit within your budget.

All group training fees below are for 10-30 participants.
